

Title: Reflections on an Unforgettable 3-Day Field Trip in Nam Sha, China

The 3-day field trip to Nam Sha, China, organized by MOY, was an incredible experience that left a deep impression on me. From the exciting rehearsals as a percussionist to the mesmerizing singing of the choir, and the unexpected adventures that unfolded, every moment was filled with excitement and wonder.

During the trip, I had the chance to be part of a rehearsal on stage as a percussionist. It was an exhilarating experience as we played together, creating a harmonious rhythm that filled the school hall. The teamwork and collaboration among the performers were truly inspiring, fueling my passion for music even more.

A memorable highlight was listening to the choir's amazing singing. Their voices were like magic, filling the air with beautiful melodies that touched my heart. It was truly an amazing experience.

In between our rehearsals, my best friend Lonnie and I found a way to have fun. We brought an RC car from home to the hotel and had a blast driving it through the corridors. People passed by with amusement when they see a Bugatti RC car zooming through the hallway. It was a lighthearted moment that helped us relax and enjoy ourselves after a long day of practice. It also brought us closer as friends.

Another fun thing we did was buying lots of snacks, drinks and desserts. Although we were restricted to stay inside the hotel, we bought ice cream by ordering through the food delivery app online, which was a first for me.

Another exciting part of the trip was visiting the GAC car expo on the last day of the trip. Among the impressive displays of cars, engines and advanced AI tech, there was one car that caught my attention—the Hyper SSR Supercar. Its sleek design and incredible power left me in awe. Making 1225 horsepower and doing 0-60 in 1.9 seconds. It was a testament to human creativity and innovation, showing what is possible when we push boundaries.

We also had the opportunity to explore the beautiful mountains surrounding Nam Sha. As we hiked, we stumbled upon real cannons from past wars, as well as caves filled with bats. Which was quite the unique and interesting experience .

As the trip came to an end, mixed emotions filled my heart. I felt a sense of accomplishment and fulfillment from all the experiences in Nam Sha, but at the same time, I didn't want to leave. The memories we created during those three days will always hold a special place in my heart.

In conclusion, the 3-day field trip to Nam Sha, China, organized by MOY, was an unforgettable journey. Each moment, from the rehearsals to the choir's singing, the unexpected adventures, and the cultural explorations, have left a lasting impact on me, and I look forward to more field trips like this one day to relive those magical moments. And last but not least, I must give a huge thanks to MOY for making this wonderful trip possible!
